23 March 1959

SUBJECT: Racks

TO: Contracting Officer

FOG has received a deadline in-place date of 30 June 1959 for racks to send to IPC(FEAF). We have most of the racks on hand to complete this installation, however, Project Headquarters has the following racks which are required for this installation.

One "B" Rack  
One "H" Rack  
One "J" Rack  
One "K" Rack

Request the date these racks can be returned to FOG, and the condition racks are in. Will these racks require refurbishing prior to reshipment, and if so, how extensive?
